

From Intelligent Land Use to Sustainable Municipalities - Impuls4Action

Friday, 5th June 2020
10.00 - 13.00 – Online WEBINAR

About the Project

The Impuls4Action project aims to trigger actions to support sustainable development on all levels by providing appropriate tools, raising awareness and finding new models for sustainable soil protection in the Alps. Climate change increases the need for integrative activities and tailor-made instruments concerning soil protection and Green Infrastructure (GI) development.

In three thematic pilot cases:

1. Water management in Alpine soils,
2. Inner Development and
3. Peatlands,

with different impact paths on soils, the project aims to collect data for Toolbox. With workshops, the needs of target groups and relevant stakeholders will be analysed and they will provide the basis for the structure of the toolbox which will merge existing information, integrate results of on-going projects e.g. “Links4Soils” and create cooperation starting from awareness-raising events to involvement of all stakeholders concerned

Please fill in [this form](#) in order to take part in the workshop.

Webinar Agenda

10:00 – 10:15 **Institutional Greetings**

Luca Masneri, Mayor - Edolo Municipality
Anna Giorgi, Director - CrC Ge.S.Di.Mont., EUSALP AG1 Leader

10:15 – 10:30 **Soil conservation in the Alpine Region: state of the art**

European Land and Soil Alliance (ELSA) - Detlef Gerdtz

10:30 – 10:45 **The ARPAF Project “Impuls4Action” - From Intelligent Land Use to Sustainable Municipalities: objectives and activities**

Stanka Klemenčič, KGZS-Zavod Maribor

10:45 - 11:00 *Instructions and break out in the three different rooms (Stefano Sala)*

11:00 - 12:00 **Parallel sessions**

12:00 - 12:15 Sum up session of the discussion per topic

12:15 - 13:00 **General Discussion - Recommendations regarding soil conservation in the Alpine Region and questions**

ROOM 1 - PEATLANDS

11:00 – 12:00 **The role of peatlands in the Alpine Region**

Environmental monitoring to verify the compatibility of the ski-track of the "Paradiso" ski lift at the ZSC IT2070001 "Torbiere del Tonale"

Giulia Tommasi, Museo Civico di Rovereto

Overview of alpine peatlands, status and network of experts and actors on national, regional and local level

Sylvia Holzträger, University of Applied Science Weihenstephan, Triesdorf

Open discussion/questions

ROOM 2 - WATER RESOURCES

11:00 - 12:00 **Water resources management in the Alps**

New paradigm of water/drought management on the Alpine Soils.

Mrs. Ph.D. Andreja Sušnik, Slovenian Environment Agency

Sharing knowledge for improving water resources management at the basin scale

Claudio Gandolfi, Department of Agricultural and Environmental Sciences - Production, Landscape, Agroenergy, University of Milan

Open discussion/questions

ROOM 3 - INNER DEVELOPMENT

11:00 - 12:00 **Urbanization and inner development in the Alpine Region**

Latest developments in South Tyrol, subsidies for restoration (first results from INTERREG Italy-Austria)

André Mallossek, Plattform Land

New spatial planning law in South Tyrol and containment of settlements

Frank Weber, Director of the resort for spatial planning in South Tyrol

Open discussion/questions
